STATE CAPITOL
HONOLULU, HAWAII 96813

August 2, 2017

Hawaii Office of Senator Brian Schatz
300 Ala Moana Blvd, Room 7-212
Honolulu, HI 96850

Re: Hawaii Island Offshore Helicopter Route

Aloha Senator Schatz,

You are probably very aware that your constituents' quality of life have been impacted by incessant tour helicopter noise. Hawaii Volcanoes National Park has the most reported flights of any national park in the nation with 15,489 roundtrip or 30,978 in and out overflights reported in 2016.

The FAA has the power to require tour helicopters into flying an off-shore route, decreasing the number of licensing, limiting the times of flying, or other noise-reduction methods that would increase the quality of life for Hawaii island residents under the flight path.

Please use your persuasive powers to advocate the FAA into requiring the tour helicopters into using offshore routes, non-residential routes, scheduling and other noise-reduction methods.

I look forward to working with you to provide the relief to our constituents that they so deserve,

Sincerely,

JOY A. SAN BUENAVENTURA
